

DRAKE AUCLAIRE

Software Engineer I

Recent Computer Science graduate and Software Engineer with a foundation in QA automation, bringing a unique perspective from breaking software to building it. Passionate about creating reliable, user-focused solutions and delivering value alongside high-performing engineering teams.

EMPLOYMENT HISTORY

SOFTWARE ENGINEER I

Sunwest Bank

May 2026 – Present

Salt Lake City, UT

- ◆ Implemented Playwright and Python UI/API tests, reducing manual regression effort and catching 100+ defects
- ◆ Built a native mobile app with Capacitor and React to extend ACH and Check exception decisioning for bank and client users
- ◆ Updated Fraud Alert UI with Bootstrap 5 and react-bootstrap, making pages fully responsive across viewports

SOFTWARE QA

Sunwest Bank

Sep 2024 – May 2026

Salt Lake City, UT

- ◆ Architected cross-domain QA automation for web, mobile, and APIs using Python and Robot Framework
- ◆ Created a new QA repository focused on API test automation and CI pipelines to deliver faster test feedback
- ◆ Tested credit card, cross-border exchange, iOS and web payment portals to improve release confidence
- ◆ Built internal interdepartmental Python applications to reduce manual handoffs and improve workflow efficiency

SOFTWARE QA INTERN

Sunwest Bank

Jun 2024 – Aug 2024

Salt Lake City, UT

- ◆ Built maintainable Robot Framework/Selenium tests in Python for finance
- ◆ Detected feature-breaking bugs before release
- ◆ Tracked development progress in Azure DevOps
- ◆ Wrote documentation to reduce code redundancy
- ◆ Reviewed code to improve test quality

EDUCATION

B.S. COMPUTER SCIENCE

Westminster University

May 2026

Salt Lake City, UT

3.92 GPA

Applied Mathematics Minor

Honors Program Graduate, Magna Cum Laude

SKILLS

Azure DevOps, Selenium, Python, TypeScript, React, Playwright, SQL, Microsoft Fabric, ASP.NET Core

ADDITIONAL INFORMATION

PROJECTS

PrepMates

- ◆ Developed and maintained an exam preparation platform using ASP.NET Core, C#, React, and Azure DevOps.
- ◆ Designed and implemented RESTful Web APIs to support application functionality and data integration.
- ◆ Utilized SQL Server for database design, development, and data management.
